

PROFESSIONAL SUMMARY

Electronics and Instrumentation Engineering graduate with a strong technical foundation in **Java, SQL, Database Management Systems (DBMS)**, and the **Software Development Life Cycle (SDLC)**. Hands-on experience in **Data Analytics, ETL Pipelines, Dashboard Development**, and **Business Reporting** through an internship at **Accenture** and academic projects. Passionate about **Software Development, Software Engineering**, problem-solving, writing clean and efficient code, and continuously learning new technologies while contributing effectively in collaborative team environments.

EDUCATION

Narula Institute of Technology
Bachelor of Technology in Electronics and Instrumentation Engineering, CGPA: 8.82
Shree Jain Vidyalaya
Higher Secondary (PCM) Percentage:77.8%

Kolkata, India
July 2022 - June 2026
Howrah, India
May 2021- May 2022

SKILLS SUMMARY

- **Programming Languages:** Java, SQL, C, HTML, CSS.
- **Data Analytics:** Data Analysis, Data Cleaning, Data Validation, Data Interpretation.
- **Databases:** Oracle SQL, MySQL.
- **Business Intelligence:** Oracle Analytics Cloud (OAC), Tableau, Dashboard Development, Business Reporting.
- **Tools:** Microsoft Excel (Pivot Tables, VLOOKUP), Google Sheets, Google Docs, Jupyter Notebook, VS Code, Microsoft PowerPoint.
- **Data Engineering:** ETL Pipelines, Data Warehousing.
- **Methodologies:** Software Development Life Cycle (SDLC), Agile Methodology.
- **Soft Skills:** Analytical Thinking, Problem-Solving, Attention to Detail, Team Collaboration.

PROJECTS

HR & Payroll Analytics & Reporting System | [LINK](#)

July 2025

SQL | MySQL | ETL | Oracle Analytics Cloud (OAC) | Data Warehousing

- Developed a centralized **HR & Payroll system** to manage employee, payroll, attendance, and leave data.
- Designed **ETL workflows** and a **star schema** (fact and dimension tables) to support **data warehousing** and reporting.
- Wrote **SQL queries** for **data extraction**, transformation, joins, aggregations, payroll calculations, and **data validation**.
- Built interactive dashboards in **Oracle Analytics Cloud (OAC)** to visualize **workforce KPIs**, salary distribution, attendance trends, and departmental performance.
- Improved **data quality** through validation and reporting techniques, enabling accurate **business insights**.

Portable Intraocular Pressure (IOP) Measurement Device | [LINK](#)

Oct 24-Jan 2025

Arduino | IR Sensors | Pressure Sensor | Embedded Systems

- **Developed and tested** a portable IoT medical device for real-time IOP measurement.
- **Configured** IR and pressure sensors and **assembled** a mini air-pump module for corneal detection.
- **Implemented** algorithms to analyze sensor readings and display results on an LCD interface.

A Posture-to-Message System for Non-Verbal Disabled Individuals | [LINK](#)

Feb 2026-Present

Arduino | ADXL345 | Bluetooth (HC-05) | Embedded Systems

- Built a **wearable posture-based communication** system for **non-verbal patients**.
- Used **ADXL345 and Arduino** to detect **head movements in real time**
- **Sent messages wirelessly** via **Bluetooth** to assist caregivers quickly.

INTERNSHIP EXPERIENCE

Accenture - Associate Software Engineer Intern | [CERTIFICATE](#)

May 2025 - July 2025

- **Engineered** end-to-end ETL pipelines to enable efficient data cleaning, transformation, and analysis.
- **Optimized** interactive dashboards on **Oracle Analytics Cloud (OAC)** to enhance stakeholder data visibility.
- **Collaborated** with data engineering teams to **streamline** analytics workflows and strengthen reporting accuracy.
- **Analyzed** large datasets to **identify** trends and support data-driven business decisions.
- **Executed** deliverables within Agile sprints, ensuring **on-time and quality-driven outputs**.

Deloitte Australia - Data Analytics Job Simulation (Forage) | [CERTIFICATE](#)

June 2026

- Completed a forensic data analytics job simulation involving data analysis and business problem-solving.
- Created an interactive dashboard using **Tableau** to visualize key business metrics and operational insights.
- Analyzed and classified datasets using **Microsoft Excel** to identify trends and support data-driven business decisions.
- Applied data cleaning, visualization, and reporting techniques to generate actionable insights.

RESEARCH PUBLICATION

Academic Research | American Journal of Electronics and Communication (AJEC)

April 2024

- **Jinnat Saba, Shams Tanveer, Soumyata Singh, Sanghamitra Layek, Bikas Mondal.** The paper entitled "Development of IoT-Based Monitoring System in Smart Agriculture" was published in the **American Journal of Electronics and Communication (AJEC)**. Available at: doi.org/10.15864/ajec.4402.

CERTIFICATES

- **Deloitte Australia - Data Analytics Job Simulation (Forage)** | [CERTIFICATE](#) July 2026
- **Introduction to Database System** | [CERTIFICATE](#) Jan-Apr 2025
- **Java Programming (Oops)** | [CERTIFICATE](#) January 2024
